

Jadwal Certified Short Course Oktober 2012

Certified Short Course	Pre-requisite	Day	Oktober																															Keterangan	
			1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31		
<b>Civil Engineering Design</b>																																			
CED 101 - Site Development	MAP 101 / CAD 101	2																																	
CED 103 - Road Development	CED 101	2																																	
CED 105 - Mining Infrastructure Dev.		2																																	
<b>Automated Mapping</b>																																			
MAP 101 - Satellite Image Base Map		1																																	
<b>Geospatial Information Management</b>																																			
GIS 101 - Land Use Analysis	MAP 101	2																																	
<b>Computer Aided Design</b>																																			
CAD 101 - AutoCAD Basic & Advance		3																																	
CAD 102 - Steel Plant	CAD 101	2																																	
CAD 103 - Steel Tower	CAD 101	2																																	
<b>Structural Analysis Design</b>																																			
SAD 101 - Steel Plant Structural		2																																	
<b>Mechanical Electrical Plumbing</b>																																			
MEP 101 - Revit MEP		2																																	
<b>Architrcutural Design</b>																																			
ACH 101 - Revit Architecture Basic		2																																	
ACH 106 - BIM - Green Building Design	ACH 101	2																																	
<b>Project Managemnt</b>																																			
PMS 101 - Planning & Controlling		2																																	
PMS 102 - Resources Management	PMS 101	2																																	
<b>Activity Based Management</b>																																			
ABM 101 - Activity Based Cost Estimate		1	1																																
<b>Foundation &amp; Geotechnique</b>																																			
FAD 104 - Slobe Stability Analysis		2																																	

Jadwal Certified Short Course November 2012

Certified Short Course	Pre-requisite	Day	November																															Keterangan	
			1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30			
<b>Civil Engineering Design</b>																																			
CED 101 - Site Development	MAP 101 / CAD 101	2																																	
CED 103 - Road Development	CED 101	2																																	
CED 105 - Mining Infrastructure Dev.		2																																	
<b>Automated Mapping</b>																																			
MAP 101 - Satellite Image Base Map		1																																	
<b>Geospatial Information Management</b>																																			
GIS 101 - Land Use Analysis	MAP 101	2																																	
<b>Computer Aided Design</b>																																			
CAD 101 - AutoCAD Basic & Advance		3																																	
CAD 102 - Steel Plant	CAD 101	2																																	
CAD 103 - Steel Tower	CAD 101	2																																	
<b>Structural Analysis Design</b>																																			
SAD 101 - Steel Plant Structural		2																																	
<b>Mechanical Electrical Plumbing</b>																																			
MEP 101 - Revit MEP		2																																	
<b>Architrcutural Design</b>																																			
ACH 101 - Revit Architecture Basic		2																																	
ACH 106 - BIM - Green Building Design	ACH 101	2																																	
<b>Project Managemnt</b>																																			
PMS 101 - Planning & Controlling		2																																	
PMS 102 - Resources Management	PMS 101	2																																	
<b>Activity Based Management</b>																																			
ABM 101 - Activity Based Cost Estimate		1	1																																
<b>Foundation &amp; Geotechnique</b>																																			
FAD 104 - Slobe Stability Analysis		2	1	2																															

Jadwal Certified Short Course Desember 2012

Certified Short Course	Pre-requisite	Day	Desember																															Keterangan
